

Ceramica cleaner

PRODUCT - OVERVIEW

Ceramica Cleaner is a concentrated, easy to use, neutral biodegradable cleaner, for floor and wall tiles.

Provides a clean and fresh appearance on most kinds of tile materials, including natural stone, terrazzo, ceramic, marble and the like.

Restores and preserves the natural, original appearance of tile materials, while leaving a pleasant odour.

PRODUCT - FEATURES

- The product is completely biodegradable.
- Has a neutral pH of 7.5
- Able to be diluted with water, making it economical to use.

PRODUCT - APPLICATIONS

- Dilutions between 1 part concentrate and 10 to 60 parts water are recommended, depending on the level of dirt.
- Determine the appropriate dilution by a trial cleaning.
- Apply the diluted solution onto the surface to be cleaned, leaving for 5 minutes on stubborn dirt. Do not let the solution dry.
- Remove the dirty solution after use.

PACKAGING

25 litre containers x 24 on one Euro pallet.

210 litre drums x 2 on one Euro pallet.

1000 litre IBC container.

SAFETY

Refer appropriate MSDS before handling and use.
