

# Green X

WVT

INDUSTRIES

## PRODUCT - OVERVIEW

- Green X is a powerful detergent based fungicide with antistatic and anti-fungal qualities for the cleaning and prevention of all kinds of algae and fungi on exterior painted surfaces, concrete, tiles, garden furniture, drive ways, bricks, cobble-stones, terraces, tombstones, walls, veranda's, road ways etc.

## PRODUCT - FEATURES

- The unique formulation of Green X provides a long lasting and self-cleaning effect on surfaces to which it has been applied.
- Does not leave spots
- Green X is completely biodegradable.

## PRODUCT - APPLICATIONS

- Dilute the product to a maximum of 1 part concentrate with 9 parts water. Apply uniformly with a soft brush or spray, onto a dry surface.
- For heavy growth 1 part concentrate to 4 parts of water may be used and in extreme cases 1:1 can be necessary.
- The cleaning must be done in dry weather to guarantee maximum effect of the product.
- Depending on the substrate and dilution, 1 litre of Green X will clean 50 to 70m<sup>2</sup>.
- Do not rinse with water, unless the wall is to be painted and only then after a minimum of 48 hours
